

Science Week 2022

11th March 2022

Dear Parents and Carers,

Science Week will be taking place on the week of the 14th March 2022. This is our opportunity to focus on making science creative and to raise its profile, by exploring ideas and investigating scientific concepts. This year's theme is '**Growth.**' The children will be discussing what growth means to them and where we can see it in our day to day life. To celebrate the importance of Science Week, we would like to invite all pupils and staff to dress up as a scientist on **Friday 18th March 2022.**

As part of Science Week, we would love to have some parent volunteers visit and discuss their jobs with the children on Tuesday 15th March 2022, especially those that incorporate the theme of growth or challenge stereotypes. Please let the office know if you are interested.

Poster Competition

Pupils can get creative and enter the British Science Association's annual, UK-wide poster competition around the theme, 'growth.' Their poster can be about any version of 'growth' that they like and be in with a chance of winning a prize! Posters must be uploaded with children's details: **first name and surname, age and class.** Please hand in your poster by **Friday 14th March** to your class teacher. A prize will be given to the winner of each year group.

Thank you in advance for your continued support and we are looking forward to taking part in a fun Science Week!

Yours faithfully

Miss Macdonald
