

3<sup>rd</sup> April 2017

Dear Parent, Carer and Friends,

I think we are all still excited and so pleased with the outcome from Wednesday evening. It was such good news to get the permanent planning permission and I am certain that the enthusiastic support from all the parents and staff helped enormously in this political process. As Mr Tofallis has said already, thank you to everyone for helping us make this happen.

I have received a very nice letter from Mr Mario Michael, the resident who leads the resident group and spoke at the meeting on Wednesday. He sent his very best wishes to the school and its parents and pupils and wished us all well for our new school. It was pleasing to receive Mr Michael's letter and we will keep in touch with him as we move forward on both the temporary accommodation and the building of the permanent. There clearly will be some issues for residents during this period. Mr Michael also said that he has withdrawn his objection to the extension of the temporary building application.

We will strive to keep parents, friends and carers all informed of the developments with both the temporary extension and the building of the permanent building and, to that effect, we will arrange another information session for everyone in the summer once more is known about the summer activities.

In concluding, thank you again for your sterling support and have an enjoyable Easter break in a few days time.

Kind regards

Mr D Brown  
CEO
