This term our theme is 'Living London'. We will be learning about some important events, which have shaped London into the city it is today, including the Great Fire of London. The children will have the opportunity to investigate London past and present and look at the features of the city and key historical events. We will also be learning about important historical people such as Florence Nightingale and Samuel Pepys and how their work has influenced our historical understanding of London.

As <u>historians</u>, we will be finding out about and investigating the events surrounding The Great Fire of London. We will be using a range of sources to understand chronology by creating timelines linked to the Great Fire of London. We will be investigating and interpreting the past by studying Samuel Pepys, Florence Nightingale and Mary Seacole.

As <u>artists</u>, we will be developing many different techniques using a range of fabrics to create a class fabric mural of greater and inner London we have investigated. Through this, we will be developing an awareness of colour, texture and shape. We will be looking at range of textile artists.

Bright Lights, Big City

In <u>RE</u> we will be learning about Diwali story and the themes behind it. We will be making Diva lamps and Mehndi hand patterns that look how they relate to our own lives. We will explore the Sikh faith and look at the importance of Guru Nanak and his birthday. We will also be learning about Hanukah and how Jewish people celebrate it and compare it to our own beliefs.

As <u>geographers</u>, we will be investigating places by creating maps and plans of the great fire of London. We will carry out fieldwork whilst in London, taking digital photographs of landmarks to help us use geographical vocabulary. We will be using maps and atlases to locate specific areas relating to the Crimean War. We will also compare localities from the time of Florence Nightingale and the present day.

As <u>scientists</u>, we will be investigating the properties of materials. We will use this information and knowledge and relate it to buildings and their functions. We will compare, classify and test materials in order to establish their properties and suitability.

We will also look at how shapes of objects can be changed and we will carry out practical group investigations to test predictions and draw conclusions.

We spend some time investigating the habitats of various animals

As <u>design technologists</u>, our focus this term is construction. We will gain inspiration from previous cart designs and investigate what makes a strong structure. We will use our knowledge to create a design, then make, and evaluate our cart model, which will be designed to hold a minimum weight. We will practice skills such as cutting, folding and gluing accurately and safely to create our designs.

In our daily <u>Maths</u> lessons, we will be focussing on becoming masters of our curriculum by:

- Counting, estimating and investigating number sequences
- Understanding place value and ordering of numbers up to 100
- Practising addition, subtraction, multiplication and division skills
- Applying number skills to real life problems
- Recalling and learning 2, 5 and 10 multiplication tables
- Revising and extending time telling skill
- Revising and consolidating our knowledge of the properties of 2D and 3D shapes

In <u>P.E</u> we will be:

Discussing Health and Safety of P.E. and being aware of the effects of exercise on our bodies.

<u>Gymnastics</u> - In gymnastics, we will be focusing on how to balance in difference ways. We will be creating a sequence of movements and balances demonstrating strength and control.

<u>Games</u> - In games, we will be practising and refining dribbling, co-ordination and spatial skills.

In <u>PSHE</u>, we will be focusing on 'Relationships'. Within our lessons, we will be looking at Feelings, Emotions, and Healthy Relationships. The children will spend time thinking about a variety of feelings that they may experience, how others may feel and the impact that their behaviour has on those around them.

This term you can help your child at home by -

- Discussing London and the developments of recent years.
- Taking trips to the library to access books relating to London past and present, The Great Fire of London and Florence Nightingale and the Crimean War. Visiting sites of interest in and around London and discussing their importance, features and their function.
- Sharing favourite poems and encouraging an exploration of the work of a range of poets.
- Including maths skills and practise within everyday tasks such as going shopping using money or sharing out food equally.
- Helping them to learn their times tables.
- Integrating telling the time into everyday activities.
- Encouraging your child to think about their behaviour and the impact it has on those around

In our daily <u>English</u> lessons, we will be focussing on becoming masters of our curriculum by:

Revising previously learnt vowel phonemes and tricky words.

Practising the correct formation of cursive script handwriting.

Using and developing a range of grammar skills to support writing.

Exploring a range of poetic techniques such as the use of adjectives, similes and alliteration and understanding the effect they have on the reader by writing their own poems based on a familiar format.

Developing our diary writing skills from the view of Samuel Pepys regarding The Great Fire of London; and develop our letter writing linking to Florence Nightingale and the Crimean War.

In <u>Computing</u>, we will be focusing on the topic of 'We Are Photographers'.

We will be using iPads, laptops and other equipment to take photos and learn how to edit them using a variety of software.

In <u>Music</u>, we will be learning to control percussion instruments; thinking about playing them to a pulse, the dynamics, and duration of sound.
