Ashmole Primary School - Coronavirus Update - Thursday 19th March 2020

Dear Parents and Carers

The UK Government has announced that schools in England will shut at the end of the day on Friday and there will be no KS1 SATS or tests taking place in May or June. The Government has also said that the most vulnerable children and children of key workers will have the opportunity to attend school.

These developments are significant but not unexpected. We hope to hear more information from Government very soon. When we do we will update you further. Online work will definitely be set by the class teachers for all our pupils. Please check emails regularly for any updates.

Our plans for today and Friday remain the same; school is open to all pupils.

I would like to thank the staff, parents, pupils and our Governors for their support. Please be assured that everyone at Ashmole Primary School remains fully committed to supporting our school community through these unprecedented and difficult times.

Yours sincerely

Mr Tofallis
Head Teacher
