Dear Parents/Carers

As the new Chair of Governors, I wanted to thank the whole school community, including the parents, the students and particularly Mr Tofallis and the Ashmole Primary Staff, for the incredible efforts that have gone into maintaining the high level of learning and care that we have come to expect.

We are acutely aware that we are all facing difficult challenges, both collectively and individually, but it is heartening to see how the school has adapted to these challenges and that the online learning has evolved and developed, continuing to provide support and guidance for each child. However, this cannot continue without the flexibility, positivity and care of all the parents and carers – something that the school leaders and governors recognise and value.

All those who have responsibility for leading aspects of the school are working hard to ensure that this provision continues to support all aspects of the children's growth and development as this uncertain period continues.

Thank you for your continued support.

Yours faithfully

Tim Sanders  
Chair of Governors
